# Basic & Intermediate Hazardous Waste Training

**Dates:** Monday, March 12 &  
Tuesday, March 13, 2012

**Location:** Aquaterra Environmental  
Solutions, Inc.  
14755 Grover St  
Omaha, NE 68144

**Course Description:** This 2-day course offers a comprehensive review of hazardous waste regulations as well as a basic review of solid & hazardous waste determinations that you need as a hazardous waste manager.

This training provides an overview of major topics and issues involving hazardous waste management and is an excellent way to prepare for your next regulatory inspection. Attendees will be qualified to provide hazardous waste training to their personnel.

A copy of the *Title 128 - Nebraska Hazardous Waste Regulations* is included in the cost and will be provided on the first day of the course.

## **IMPORTANT COURSE DEADLINE**

\$695 / person if paid by February 29, 2012  
\$795 / person if paid after March 1, 2012

\* Multiple attendees from the same company will receive a \$100 discount for the 2<sup>nd</sup>, 3<sup>rd</sup>, ...

\*\* Refund minus \$100 processing fee will be provided if cancelled before March 2, 2012.

\*\*\* This course will be limited to the first 15 applicants.

## **COURSE AGENDA**

- Hazardous waste determinations
- Solid waste definitions and exclusions
- Hazardous waste exclusions
- Container management
- Satellite accumulation container management
- Pre-transport requirements
- Notifications
- Hazardous waste manifesting
- Land disposal restrictions
- Universal waste management
- Used oil management
- Recordkeeping requirements
- Preparedness & prevention and contingency plans
- State-Federal differences
- The most common violations

## **COURSE INSTRUCTORS**

Mr. Jim Harford, a Certified Hazardous Materials Manager (CHMM), has over 17 years of waste management experience and has instructed numerous hazardous waste training courses from basic to advanced levels. A former Nebraska Department of Environmental Quality (NDEQ) employee, where he held the position of Compliance Assistance Coordinator in the Waste Management Section, Jim has delivered training courses to business and industry throughout the region. He has also delivered specialized training to regulatory authorities in Nebraska and throughout the U.S. at Association of State & Territorial Solid Waste Management Officials conferences and webinars.

Mr. Harford has broad experience in environmental management in the State sector at both the regulatory and feet-on-the-ground levels. He recently joined Aquaterra as a senior compliance specialist after retiring from the NDEQ in October 2011 after 14 years in the Waste Management Division. Don't miss this opportunity to learn from an expert with a regulator and regulated entity perspective.

As a regulated entity, prior to the NDEQ, Jim was the Hazardous Waste Manager for the Nebraska Army National Guard and prior to that spent 26 years in the U.S. Air Force. As an Air Force Colonel, he was the Vice Commander of a SAC Bomb Wing in Northern Michigan and was Officer in Charge of the base's Environmental Program and the Chairman of the Wing Environmental Protection Committee. His last assignment in the Air Force was as a Faculty Instructor at the US Army War College at Carlisle Barracks, PA.

Co-course instructors for this training include Mr. Mike Miller, CHMM and Mr. John Hartwell, P.E., CHMM. Mike is the Aquaterra company-wide Environmental Practice Leader, has 18 years experience as a consultant and regulated entity, and is the current President of the local CHMM Chapter. Mike routinely consults business and industry on hazardous waste compliance related matters and has completed multimedia compliance audits for a multitude of industry sectors. John is the Aquaterra Chief Engineer, has more than 35 years experience as a consulting engineer, is a member of the local CHMM Chapter, and is the current President of the local Solid Waste Association of North America (SWANA) Chapter.
